GSV Capital Corp. Reports Fourth Quarter and Fiscal Year 2013 Results of Operations

Net Asset Value Increases to \$14.91 Per Share as of December 31, 2013

WOODSIDE, Calif., March 13, 2014 (GLOBE NEWSWIRE) — GSV Capital Corp. ("GSV") (Nasdaq:GSVC), today announced financial results for the fourth quarter and year ended December 31, 2013.

"Based on a number of positive portfolio developments in 2013, I'm pleased to report a strong annual increase in net asset value per share of \$1.84 or 14% to \$14.91 at year-end," said Michael Moe, GSV's founder and Chief Executive Officer. "The core tenet of our investment strategy is the identification of game changing companies at the intersection of megatrends across growth sectors. Based on our portfolio of 49 companies, we estimate a weighted average growth rate of approximately 85% in calendar year 2013 for the private companies we own. In addition to impressive business growth and value creation for these companies, fiscal 2013 turned out the IPO of Twitter, our largest investment, as well a number of other successful offerings and capital raises by our portfolio companies. Several of these may pursue IPOs within the next 18 months. Fundamentals for the themes that we invest in remain compelling, and looking ahead, we are confident in the near term environment for growth investing."

Since inception, GSV has been taxed as a regular corporation (a "C corporation") under subchapter C of the Internal Revenue Code. As a result of a potential change to RIC status, GSV would not be subject to federal income tax on the portion of income distributed (or deemed to be distributed) to stockholders. GSV would be subject to U.S. federal income tax at the regular corporate rates on any income or capital gains not distributed (or deemed to be distributed) to stockholders.

"It has always been GSV's intent to be treated as a regulated investment company, or 'RIC'. In conjunction with that potential change from regular C corporation status, it would be our intention to distribute at least 90% of our investment company taxable income² to shareholders in the form of dividends," Mr. Moe commented.

² Investment company taxable income is generally net ordinary income plus the excess of realized net short-term capital gains over realized net long-term capital losses.
