Recent Developments

On August 8, 2017, GSV Capital announced Michael Moe's resignation as its Chief Executive Officer, effective August 11, 2017. Mr. Moe will continue to serve as Chairman of GSV Capital's Board of Directors. GSV Capital's Board of Directors has appointed Mark Klein, a member of GSV Capital's Board of Directors and a consultant to its adviser, GSV Asset Management, LLC, to serve as Chief Executive Officer, effective August 11, 2017.

Given the material discount between the share price and net asset value per share, on August 7, 2017, GSV Capital's Board of Directors authorized a new discretionary share repurchase program of shares of GSV Capital common stock of up to \$5.0 million over 12 months, until the earlier of (i) August 6, 2018 or (ii) the repurchase of \$5.0 million in aggregate amount of GSV Capital common stock. Under the discretionary repurchase program, the Company may, but is not obligated to, repurchase its outstanding common stock from time to time in the open market provided that the Company complies with the prohibitions under its insider trading policies and procedures and the applicable provisions of the Investment Company Act of 1940, as amended (the "1940 Act"), and the Securities Exchange Act of 1934, as amended.

The timing and number of shares to be repurchased will depend on a number of factors, including market conditions and alternative investment opportunities. In addition, any repurchases will be conducted in accordance with the 1940 Act. The Company has not yet been active in the current repurchase program and there are no assurances that it will engage in repurchases, but if market conditions warrant, the Company now has the ability to take advantage of situations where the Company's management believes share repurchases would be advantageous to the Company and to its stockholders.

(1) The per-share figures noted are based on a weighted average of 22,181,003 basic common shares outstanding for the three and six months ended June 30, 2017 and 2016.

(2) Total return based on market value is based on the change in market price per share between the opening and ending market values per share in the period. Total return based on net asset value is based upon the change in net asset value per share between the opening and ending net asset values per share.

(3) Financial Highlights for periods of less than one year are annualized and the ratios of operating expenses to average net assets and net investment loss to average net assets are adjusted accordingly. Non-recurring expenses are not annualized. For each of the three and six months ended June 30, 2017 and 2016, the Company did not incur any non-recurring expenses. Because the ratios are calculated for the Company's common stock taken as a whole, an individual investor's ratios may vary from these ratios.
